

**ShenZhen HongRun New  
Material Technology Co., Ltd**

**深圳市宏润新材科技有限公司**

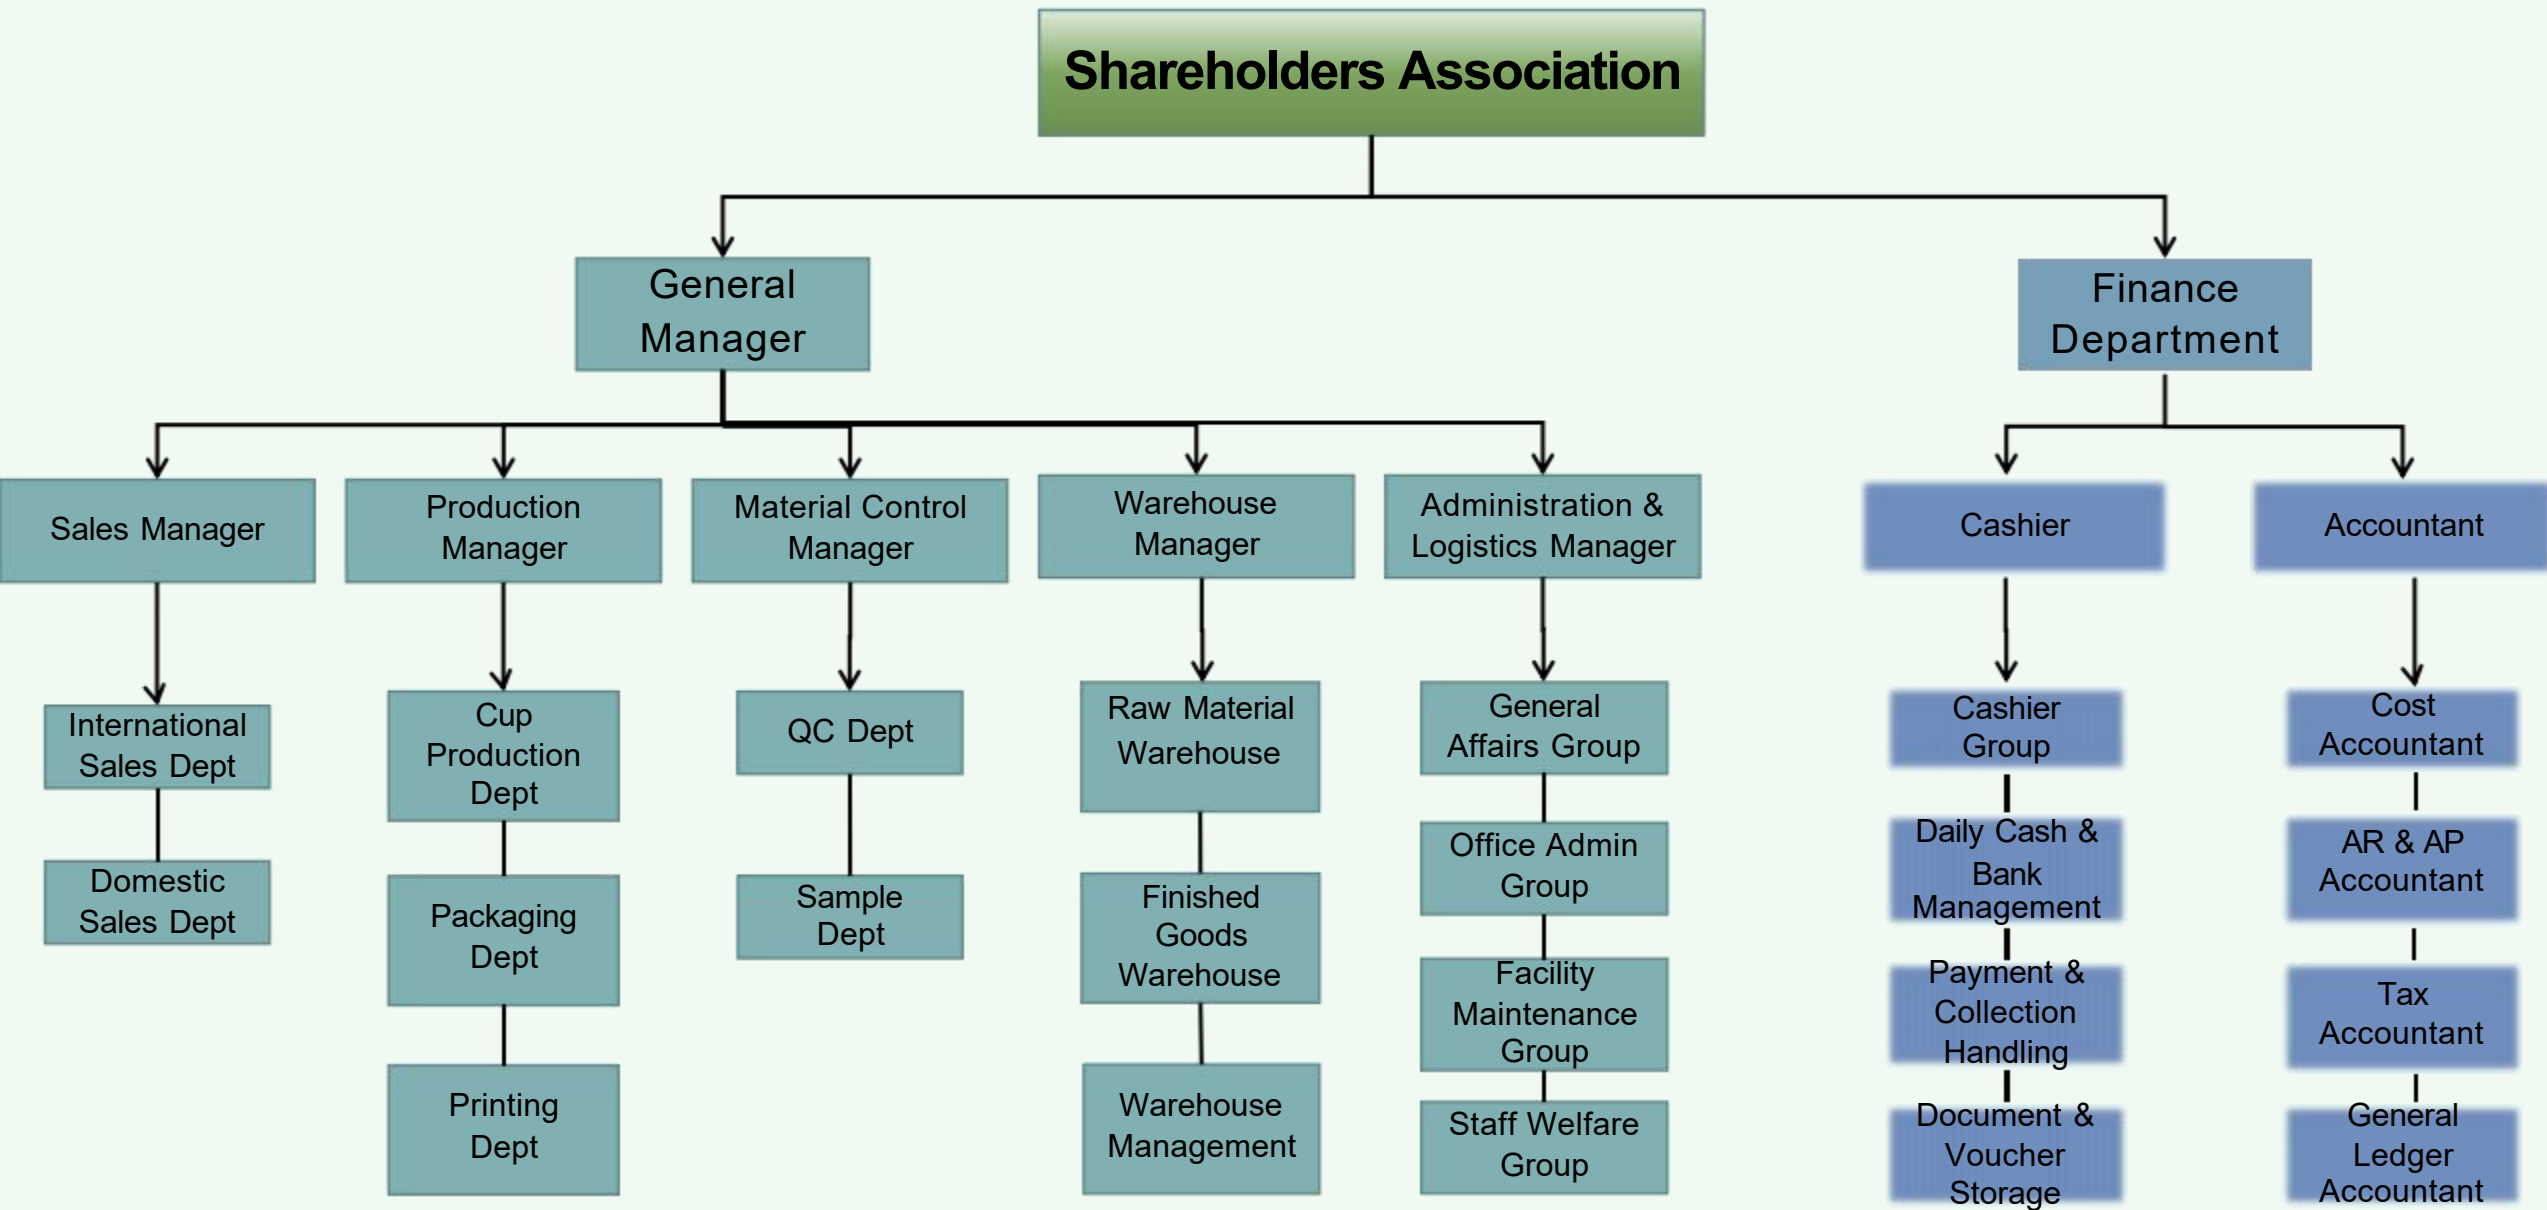

# Company Profile

---

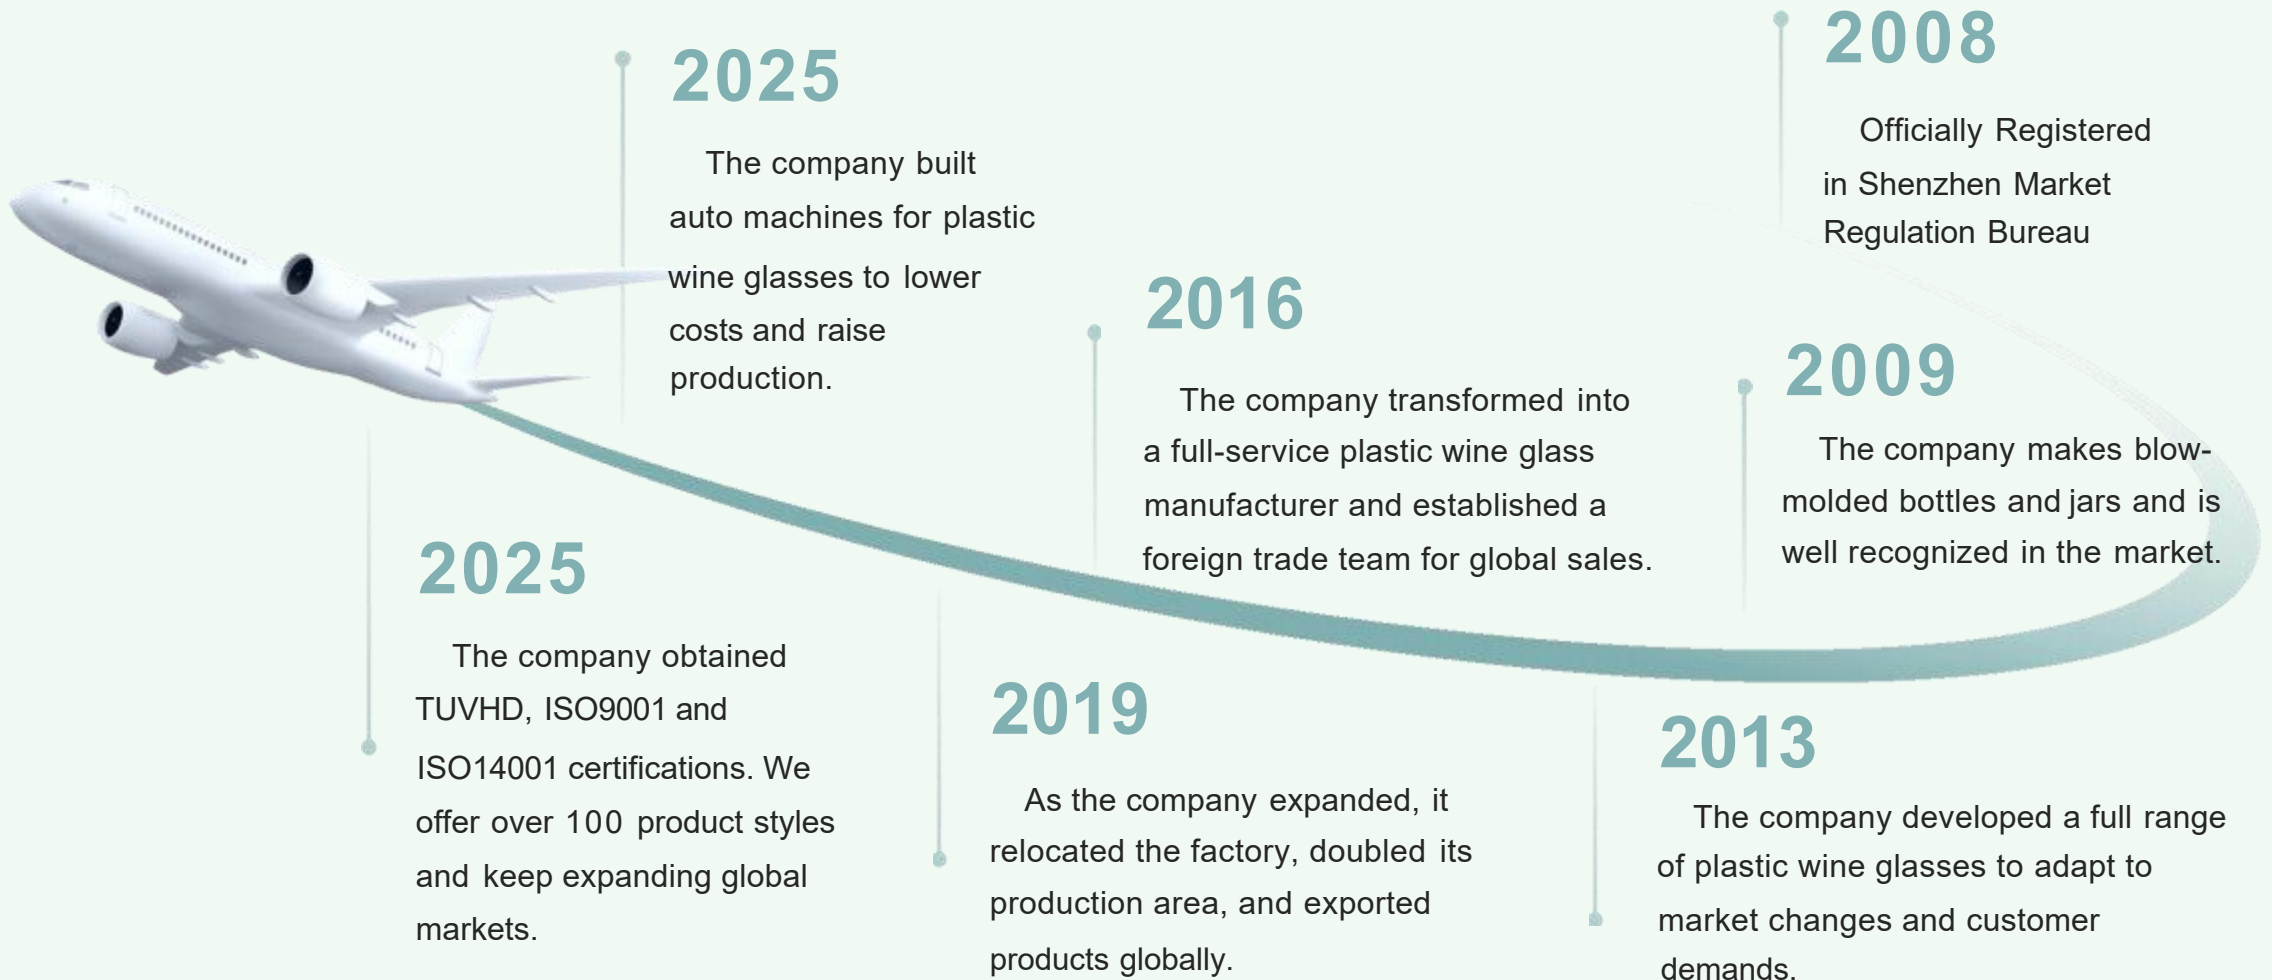

- We are a professional manufacturer of plastic wine glasses with **20 years** of specialized production experience. We focus on producing red wine glasses, beer mugs and champagne flutes, holding multiple utility model patents and international certifications including **SGS and ISO**.
- Equipped with modern automated production lines, we deliver efficient **OEM & ODM** services and customized solutions. Our production capacity reaches 150,000 plastic wine glasses per day, with an annual output of **50 million pieces**.
- Our products are made from BPA-free materials such as PET, Tritan, PP, SAN and PLA. Custom printed patterns under OEM orders are available, and we also **offer tailored packaging services** upon clients' requests.
- Over the past 20 years, our products have been **exported globally**, covering North America (the US, Canada, Mexico), Europe (Sweden, the UK, Germany, Spain), Oceania (Australia, New Zealand), South Africa and the Middle East (Saudi Arabia, the UAE, Bahrain).

# Core Advantages

# Sales Volume in Recent 5 Years

As we expand our business, explore new markets and accumulate customers, our sales grow steadily each year. We will keep learning from past successes to keep improving and deliver reliable premium products for all partners.

# Order Process

## Pre-Procedure: Inquiry & Custom Confirmation

1. Client sends inquiry with detailed requirements

2. Clarify specific demands & offer targeted quotation

3. Confirm custom printing or mold opening requirements

4. Verify artwork, packing way & carton appearance specs

5. Provide printing design drafts & negotiate freight cost

6. Finalize customization details & payment terms

7. Client pays deposit; we arrange pre-production sample

8. Confirm physical printing sample effect

9. Client approves sample & mass production starts

## Production & Quality Control

10. Mass printing & manufacturing

11. In-house inspection / third-party inspection of finished goods

12. Client settles balance payment

13. Pack finished products into cartons

## Shipment & After-Sales Service

14. Update pre-shipment info: warehouse booking & container pick-up schedule

15. Send photos & videos of finished goods before loading

16. Provide real-time photos & videos during container loading

17. Real-time tracking & update logistics information

18. Confirm cargo arrival at destination

19. Professional after-sales support

# Company Photos

We have prepared photos of our factory, professional team and sample showroom for your easy reference, hoping they can help you gain a clear and intuitive understanding of our company.

# Factory Photos

Here are photos of our production workshops , warehouses and hot stamping room .

We are equipped with 6 fully automatic molding machines in the workshop , supporting a maximum daily output of 120 ,000 plastic cups .

Our warehouse has large storage capacity , which can hold finished goods equivalent to 10 x 20GP containers at full capacity .

In the hot stamping room , we provide customized rim finishing services . Gold rims , silver rims , rose gold rims and other color options are all available for your custom orders .

# Certification Photos

These are our export product certificates, including MSDS, BPA-free certificate, EU food contact safety certification and ISO certification.

# Exhibition Photos

Here are photos taken at various trade shows we attended.

At the Canton Fair, we communicate with global buyers to learn market trends for new product R&D.

At the 32nd China (Shenzhen) International Gifts & Home Products Fair, many customers visited our booth and requested samples, laying groundwork for future cooperation.

At Jakarta Home & Gift Fair in Indonesia, we discussed local market potential with local buyers to expand our brand locally.

# Shipment Photos

These are on-site photos of full-container loading .

With nearly 20 years of export experience, we have mature, standardized loading procedures to guarantee fast and efficient shipment arrangements .
